Zadara for Veeam

VEEAM
PROPARTNER

VEEAM
READY

Repository

Features & Benefits

Simplified
Simplified single platform for Veeam backup

100%-OpEx
The only 100%-OpEx model for all storage tiers. Scale up or down as needed, on premises or cloud, and never pay for unused capacity

Hybrid
Flexible hybrid model, from entry level on-premises to scale-out cloud
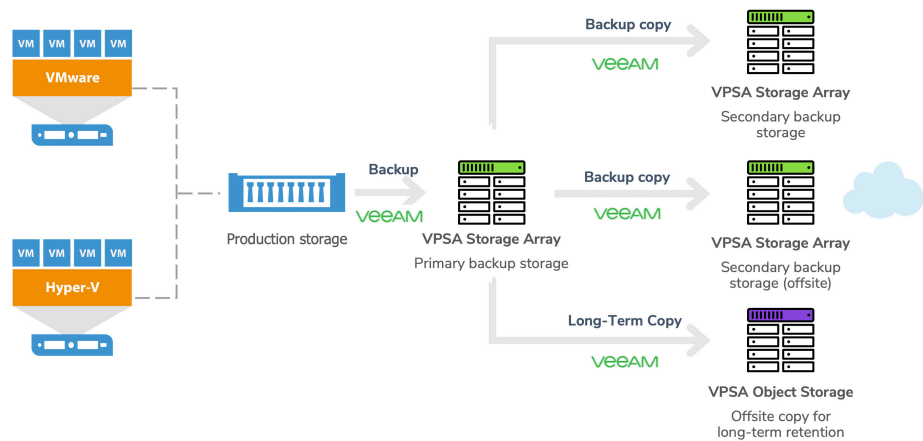

Single, scale-out backup repository delivers multiple tiers of storage, to optimize for performance or capacity.

Streamline Veeam Backup with a Single Storage Platform

Veeam Availability Suite offers industry-leading backup, restore, and replication capabilities with advanced monitoring, reporting, and capacity planning. Combine Veeam and Zadara to drive application and data availability in a flexible backup-as-a-service model — on premises, at your data center, and in the public cloud. Zadara enterprise storage-as-a-service is Veeam Ready.

Zadara provides Veeam users the option to create a scalable, cost-effective backup repository comprised of multiple tiers of storage, to optimize for performance or capacity. The Zadara solution addresses Veaam's Performance Tier and Capacity Tier demands.

Powerful. Simple. Cost-effective.

Combining Veeam Availability Suite and Zadara storage addresses key data center challenges, by enabling exceptional backup performance and rapid data recovery in a streamlined user experience and flexible operating model.

- A single, scale-out backup repository comprised of multiple tiers of storage to optimize for performance or capacity
- Scale up or down as needed, on premises or cloud; never pay for unused capacity
- Dedicated resources, not shared
- A 100%-OpEx model for all storage tiers
- On-demand hardware upgrades included

As primary backup repository for Veeam, Zadara is ideal for customers who want to keep backups on premises — including on-premises object store — while leveraging a true OpEx model. Veeam Cloud Tier engages Zadara Object Storage's cost-effective on-premises or cloud tier by automatically offloading older backup files from the primary backup repository to Zadara Object Storage.

Zadara & Veeam: A Powerful Partnership

Zadara is Veeam Ready and is a Pro Partner within Veeam's Technology Alliance Program. We work closely together, to ensure seamless performance and compatibility between Veeam software and Zadara storage.

You manage your business. We'll manage your storage.

Control your data and pay only for what you consume. Zadara eliminates the burdens associated with enterprise storage by delivering industry-leading enterprise SAN, NAS and Object storage as a fully-managed service with 24/7 proactive monitoring and support, backed by a 100%-uptime guarantee, and wrapped in the industry's only true consumption-based model. You choose how you want your fully-managed enterprise storage solution hosted: on-premises, co-located in a data center, or in the cloud. Scale up and down as needed and pay only for what you actually use.
