Nanodots Magnetic Construction at The Gadget Show

Thousands of people came along to the exhibition, which was held at the NEC Birmingham, to see the latest home and leisure technology products.

Thousands of people came along to the exhibition, which was held at the NEC Birmingham, to see the latest home and leisure technology products.

Gadgets

The Gadget Show Live

Thousands of people flocked to the NEC Birmingham for the Gadget Show Live, where the latest home and leisure technology products were unveiled to the public.

The exhibition, which was held at the NEC Birmingham, featured

the latest in home and leisure technology products, including

televisions, mobile phones,

laptops, tablets, cameras and

other electronic devices.

There were also many

exhibitors showcasing

their latest products.

One of the highlights

of the show was the

introduction of the

new iPhone 5, which

was much anticipated

by fans of the device.

Other exhibitors

included Samsung, LG

and Sony, who all

displayed their latest

products to the public.

The show was well

attended, with many

visitors taking the

opportunity to try out

the latest gadgets and

experience them for themselves. The show provided a great opportunity for visitors to learn about the latest technology and to see how it can benefit their everyday lives.

Overall, the Gadget Show Live was a success, with many visitors leaving with new gadgets and a better understanding of the latest technology.

It's clear that the

world of technology

is constantly

evolving, and

the Gadget Show

Live is a great place

to witness this firsthand.

Whether you're

interested in

new phones or

tablets, or simply

want to learn more

about the latest

innovations in

technology, the Gadget

Show Live is the

place to be.

So if you're

looking for a

fun day out, make

sure to check out the Gadget Show Live. You won't be disappointed. The show is a great way to learn about the latest technology and to have fun doing it.

So if you're looking for a

fun day out, make

sure to check out the

Gadget Show Live.

You won't be

disappointed. The

show is a great

way to learn about

the latest technology.

So if you're

Jennifer Love Hewitt Meets the World's Largest Magnetic Sculpture

got the most nanodots,' and that the Nanodots company is probably going to win every time. But! That doesn't mean we can't admire the big bright shiny magnets. It also puts J-Love about as close as she's going to come to one of these Major Awards, especially after the criminal injustice of too, too many *Ghost Whisperer* snubs. [[Read more](#)]

Nanodots—those tiny magnetic pellets that you can sculpt with—have reached new heights and widths. To celebrate the Golden Globes, their creators linked over 550,000 pellets into a 600lb award statuette. It's not real, Jennifer Love Hewitt!

The faux-Globe shattered the previous record of 32,786 magnetic dots, although it seems a little bit like the contest is basically "who's

Nanodots Builds Its Own Golden Globes Award out of 550,000 Magnets!

The Globe of Excellence is built from 550,000 magnets of magnetic 600 lb weight. The sculpture is currently the largest magnetic structure in the world. The Nanodots team has been working on this project for over a year now.

JIBC企画社

世界記録! ゴールドグローブを大作成! 600万以上! ビックリ!

Archived

They played with this before and the little magnets B&B are really cost 1000 to 1500 pieces of things, but my construction expense of that year so my staff decided to break Nanodots put a couple goals to the task of breaking a world record using Nanodots and they succeeded.

The day built the Guinness World Record certified magnetic sculpture using 550,000 gold nanodots. The sculpture was the Golden Globes award statue and it weighed in at about 600 pounds. The previous record holder contained only 32,786 magnetic dots in it.

Faux Golden Globe made of half-million magnets

A behemoth magnet sculpture made out of 550,000 tiny golden magnets called Nanodots, take Guinness World Record for "World's Largest Magnetic Structure".

by Christopher Hitchens | JANUARY 13, 2011 | COMMENTS

It's not clear if the fake trophy is a Nanodot or a Nanodot-like. Other than that, it's a fake.

LEGO is child's play. Real geeks build with Nanodots

Sometimes I get toys to play with. A couple of months ago, I was talking on Twitter about playing with magnets, when my Twitter friend Ashley from ChickTech.com told me about Nanodots.
